IN THE HOUSE OF REPRESENTATIVES

Mr. MORAN (for himself and Mr. CRENSHAW) introduced the following bill; which was referred to the Committee on Foreign Affairs, and in addition to the Committee on Natural Resources, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned

A BILL

To establish a program to provide grants to nonprofit organizations to enable such organizations to assign and support volunteers to assist foreign countries in the administration of their natural resources in an environmentally sustainable manner.

1 *Be it enacted by the Senate and House of Representa-
2 tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “International Con-
5 servation Corps Act of 2012”.

1 **SEC. 2. FINDINGS.**

2 Congress finds the following:

3 (1) There is a significant deficit in the capa-
4 bility of many developing countries to manage their
5 natural resources sustainably, which is fundamental
6 to achieving economic development, poverty allevi-
7 ation, conflict avoidance, good governance, and re-
8 gional security.

9 (2) Developing countries with a great wealth of
10 natural resources are facing a great risk of conflict.
11 Issues that arise in these countries include corrup-
12 tion, disputes over control and distribution of the re-
13 sources and resulting wealth, fighting over and de-
14 struction of resources and resource-rich areas, and
15 human rights abuses.

16 (3) Developing countries that successfully man-
17 age their natural resource wealth, however, continue
18 to benefit from these resources without resulting
19 conflict.

20 (4) It is in the security interest of the United
21 States to share the vast experience and proven meth-
22 odologies that the United States has achieved over
23 many decades with developing countries struggling
24 to establish their own successful natural resource
25 management programs and policies.

1 (5) The many United States senior profes-
2 sionals retiring from both the public and private sec-
3 tor with extensive experience and expertise in the
4 field of natural resource management, acting in a
5 voluntary capacity, presents a unique and important
6 opportunity to help other countries develop the ca-

8 sustainably.
